

## Even and Odd Numbers

Two objects sharing some kind of a relationship makes a pair.

a pair of shoes

a pair of eyes

a pair of socks

Here is a collection of 6 apples.

6 apples make 3 pairs of apples.

Numbers like 2, 4, 6, 8 can be arranged in pairs.

The numbers that can be arranged in pairs are called **even numbers**.

Now try to arrange 7 apples in pairs.

Here, 1 apple is left unpaired.

Numbers like 1, 3, 5, 7, 9 cannot be arranged in pairs. The numbers that cannot be arranged in pairs are called **odd numbers**.

## Ordinal Numbers

Numbers that are used to tell the position or order of something are known as **ordinal numbers**.

Look at the given picture carefully. Children are standing in a line. The **first** child is a girl in green T-shirt. The **fifth** child has balloons in his hands. The **tenth** child has a book in his hands.

Look at the children travelling in the toy train. Check their positions.

The boy on the ..... position has a flag in his hand.

Circle the second and the seventh child.

There are two children with folded hands. On which positions are these children present? ..... and .....

**Teacher's Tip**

Organise a race between 10 students. At the end of the race, inform the students the position of each child using ordinal numbers. This will help them to strengthen their understanding about ordinal numbers.

## Mental Maths

Colour the ice creams as directed.

Colour the fourth and the fifth ice cream cones in yellow.

Colour the sixth and the first ice cream cones in brown.

Colour the second and the third ice cream cones in purple.

### Exercise 1.5

1. Circle the objects in pairs. Count and find whether they are even or odd. Write the total number of objects. One has been done for you.

Even

2. Underline the even numbers.

1, 5, 2, 7, 8, 9, 10, 11, 12

3. Underline the odd numbers.

2, 3, 4, 1, 5, 6, 9, 8, 7, 10, 12, 11

4. Fill in the blanks.

a. The position of the letter 'I' in the word MATHEMATICS is

b. The position of the letter 'N' in the word SCIENCE is

c. The letter '.....' occupies the third position in the word INDIA.

5. Circle the position of the objects.

Second

First

Fifth

### Milestones Achieved

- We can build numbers using grids of hundreds, tens and ones.
- Numbers can be compared either by counting their number of digits or by comparing the place values of digits.
- In ascending order, numbers are arranged from the smallest to the greatest.
- In descending order, numbers are arranged from the greatest to the smallest.
- The numbers that can be arranged in pairs are called even numbers.
- The numbers that cannot be arranged in pairs are called odd numbers.
- Numbers that are used to tell the order of something are known as ordinal numbers.

# EXERCISE

1. Fill in the .

hundred  tens  ones     hundred  tens  one

2. Draw and colour beads in each abacus to represent the numbers.

3. Write the place values of the coloured digits.

a. 1 **9** 7 =

b. 1 **5** 2 =

c. 1 **0** 7 =

d. 1 **8** 3 =

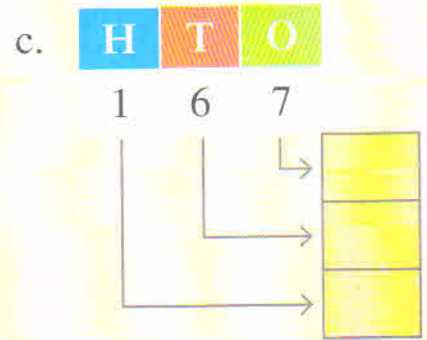

e. 1 **2** 4 =

f. 1 **1** 1 =

g. 1 **3** 6 =

h. 1 **7** 0 =

4. Write the place values of the digits.

5. Which number comes

just before?

- a. .... 110  
 b. .... 139  
 c. .... 145

just after?

- a. 179 .....  
 b. 199 .....  
 c. 110 .....

between?

- a. 106 ..... 108  
 b. 129 ..... 131  
 c. 99 ..... 101

6. Put  $>$ ,  $<$  or  $=$  sign in the .

- a. 164  146      b. 177  177      c. 199  200  
 d. 150  105      e. 187  178      f. 100  101

7. Circle the greatest number.

- a. 47 147 187      b. 127 172 107      c. 100 101 110

8. Circle the smallest number.

- a. 181 118 18      b. 132 123 143      c. 199 99 109

9. Write in ascending and descending order.

a. 191, 183, 119, 138, 103

Ascending order:

\_\_\_\_\_

Descending order:

\_\_\_\_\_

b. 175, 157, 105, 107, 115

Ascending order:

\_\_\_\_\_

Descending order:

\_\_\_\_\_

10. Circle the odd numbers in each row.

a. 8, 11, 5, 6, 7, 13

b. 4, 9, 3, 15, 10, 11

11. Circle the even numbers in each row.

a. 16, 4, 7, 9, 16, 12

b. 3, 2, 6, 11, 10, 14

12.

a. Colour the fourth and the first car red.

b. Colour the second and the fifth car blue.

c. Colour the third car green.

# FUN ACTIVITY

1. Match the following kids with their respective houses.

My house number has 0 in ones and tens place and 2 in hundreds place.

My house number has 3 in ones and tens place and 1 in hundreds place.

My house number has 2 in ones, 6 in tens and 1 in hundreds place.

My house number has 7 in ones, 5 in tens and 1 in hundreds place.

Joe

Michael

Ashi

Mini

First

Second

Third

Fourth

a. Who lives in the fourth house? .....

b. Who lives in the first house? .....

2. Colour the boxes with even numbers in green and odd numbers in blue.

1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	

## Detective Maths

1. Look at the ordinal positions of the letters of the words written on the blackboard and fill in the blanks. One has been done for you.

FRUITS  
PENCILS WATER  
RABBIT  
BOOK

I is the ...fourth... letter.

C is the ..... and P is the ..... letter.

T is the ..... and R is the ..... letter.

O is the ..... and ..... letter.

A is the ..... and T is the ..... letter.

2. Three students are standing on the victory stand.

Who has stood first?

Who has stood third?

What position did Naman secure?

3. I am the largest number on the snakes and ladder game. What number am I?
4. I can make 12 pairs of oranges. What type of number am I? Even or odd?
5. I have 6 in the tens place, 1 in the hundreds place and 6 in the ones place. What number am I?

## Maths Lab Activity

**Aim:** To make your own place value grid.

**Materials required:** cardboard, coloured sheets, crayons, glue, scissors

**Procedure:**

1. Paste the cardboard with three different colour of sheets.
2. Cut the cardboard in big square and make  $10 \times 10$  square grid on it using any colour of crayon. This will represent hundreds.
3. Make a grid of 10 squares on a rectangular thin strip of another cardboard. This will represent tens.
4. Make 10 small squares using another cardboard.

Now you have grids of hundred, tens and ones. You may use these strips to make your own numbers.

Make different numbers using these grids and ask your friends which number it is. You will have fun!

# HOLY TRINITY INTERNATIONAL SCHOOL

Mathematics

Grade: II

Lesson: 1 - Numbers upto 200

25.04.2020

## I. Choose the correct answer:

1. The number that come just after 109 is  
a. 120                      b. 110                      c. 100
2. The number that comes just before 112 is  
a. 111                      b. 113                      c. 115
3. The place value of 64 is  
a. 6 tens and 4 ones      b. 6 hundreds and 4 tens      c. 6 ones and 4 tens
4. 1 hundred = .....  
a. 100                      b. 10                      c. 1000
5. The place value of 137 in 7 is .....  
a. ones                      b. tens                      c. hundreds
6. 1 hundred 6 tens and 2 ones = .....  
a. 162                      b. 126                      c. 612
7. Compare 178 .... 187  
a. >                      b. <                      c. =
8. When numbers are arranged from the greatest to the smallest n they are said to be in .....  
a. ascending order      b. Descending order      c. expanded form
9. When numbers are arranged from the smallest to the greatest they are said to be in .....  
a. ascending order      b. descending order      c. expanded form
10. The numbers that can be arranged in pairs are called .....  
a. even numbers              b. odd numbers              c. ordinal numbers
11. The numbers that cannot be arranged in pairs are called .....  
a. even numbers              b. odd numbers              c. ordinal numbers
12. Numbers that are used to tell the position or order of something are known as .....  
a. even numbers              b. odd numbers              c. ordinal numbers

## II. Fill in the blanks.

- a. The number that comes just after 28 is .....
- b. .... is between 49 and 51.
- c. .... comes before 82.

- d. .... is between 87 and 89.
- e. .... comes after 69.
- f. The number just before 99 is .....
- g. The place value of 7 in the number 137 is .....
- h. When numbers are arranged from the greatest to the smallest n they are said to be in .....
- i. When numbers are arranged from the smallest to the greatest they are said to be in .....
- j. The numbers that can be arranged in pairs are called .....
- k. The numbers that cannot be arranged in pairs are called .....
- l. The numbers that are used to tell the position or order of something are known as .....

**III. True or False**

- 1. We can build numbers using grids of hundreds, tens, and ones.
- 2. In descending order, numbers are arranged from smallest to the greatest.
- 3. In descending order, numbers are arranged from greatest to the smallest.
- 4. Numbers that are used to tell the order of something are known as ordinal numbers.
- 5. The position of the letter I in the word MATHEMATICS IS 9<sup>th</sup> .
- 6.  $132 > 123$
- 7. The place value of 7 in 179 is tens.
- 8. The place value of 3 in 1388 is 3 thousand
- 9.  $146 = 1 \text{ hundred } 4 \text{ ones } 6 \text{ tens.}$
- 10.  $100 = 100 + 10 + 0$

**IV. Match the following**

45 after	>
55	8 tens
19	$100 + 0 + 8$
One hundred eighty six	46
108	Odd numbers
The place value of 8 in 87	Even numbers

160 ..... 106	Ninety nine
12,18,22,46	186
17,15,19,23	=50+5

**V. Answer the following questions as directed.**

**1. Write the number names.**

12 = .....

25 = .....

34 = .....

47 = .....

59 = .....

63 = .....

78 = .....

125 = .....

167 = .....

189 = .....

200 = .....

**2. Write the expanded form.**

a. 55 = \_\_\_\_\_

b. 99 = \_\_\_\_\_

c. 68 = \_\_\_\_\_

d. 76 = \_\_\_\_\_

e. 126 = \_\_\_\_\_

f. 133 = \_\_\_\_\_

g. 181 = \_\_\_\_\_

h. 145 = \_\_\_\_\_

i. 197 = \_\_\_\_\_

**3. Fill in the**

a. 67 =  tens  ones

b. 198 =  hundreds  tens  ones

c. 108 =  hundreds  tens  ones

d. 43 =  tens  ones

e. 107 =  hundreds  tens  ones

**4. Write the numbers in figures:**

a. One hundred eighty six = \_\_\_\_\_

- b. One hundred ten =
- c. One hundred seventy-seven =
- d. One hundred fifty =
- e. Two hundred =
- f. One hundred ninety nine =
- g. One hundred seventy five =
- h. One hundred sixty one =
- i. Ninety three =

**5. Write the numbers that come just after.**

- a. 109.....
- b. 130.....
- c. 187.....
- d. 199.....
- e. 123 .....
- f. 157.....
- g. 143.....
- h. 169.....
- i. 190 .....

**6. Write the numbers that come just before.**

- a. ....112
- b.....106
- c.....107
- d.....189
- e.....185
- f.....123
- g.....200
- h.....120

i.....179

**7. Compare and write the correct symbols using  $>$ ,  $<$  or  $=$**

a.143 and 73

b.49 and 132

c.. 52 and 158

d.187 and 142

e.167 and 161

f. 329 and 441

g.864 and 378

h.998 and 998

i.757 and 767

**8. Circle the greatest number.**

a. 186      168      118

b. 146      192      171

c.105      155      150

d.100      180      199

e.129      189      149

f.157      167      187

g. 146      106      164

h. 111      110      101

i. 123      137      198

j. 145      154      144

k.155      188      111

**9. Circle the smallest number**

a. 186      168      118

- b. 146      192      171
- c. 105      155      150
- d. 100      180      199
- e. 129      189      149
- f. 157      167      187
- g. 146      106      164
- h. 111      110      101
- i. 123      137      198
- j. 145      154      144
- k. 155      188      111

**10. Complete the counting.**

1			4				9	
	12			15				20
			24				28	
	32					37		40
			44				47	
	52				55			60
		63				66		
71				75			78	
			84			87		90

**11. Observe and write the numbers and number names below the abaci.**

a.

b.

12. Fill in the

a. 146 =  hundred  tens  ones

b. 133 =  hundred  tens  ones

c. 179 =  hundred  tens  ones

d. 108 =  hundred  tens  ones

e. 121 =  hundred  tens  ones

f. 156 =  hundred  tens  ones

13. Read the expanded form and write the numbers.

a. 1 hundred 6 tens and 2 ones = \_\_\_\_\_

b. 1 hundred 8 tens and 5 ones = \_\_\_\_\_

c. 1 hundred 7 tens and 6 ones = \_\_\_\_\_

d. 9 tens and 8 ones = \_\_\_\_\_

e. 1 hundred 0 tens and 0 ones = \_\_\_\_\_

f. 2 hundred 0 tens and 0 ones = \_\_\_\_\_

14. Write the place values of the digits of the number 64.

15. Write the place values of the digits of the number 162.

16. Write the place values of the digits of the number 182.

16. Write the place values in the boxes

17. Arrange the following numbers in ascending and descending order.

a. 42, 158, 93, 80

b. 113, 153, 188, 133

c. 52, 148, 184, 111

d. 100, 173, 189, 63

e. 123, 145, 167, 56

f. 56, 178, 190, 134

g. 189, 134, 178, 189

17. Circle the odd numbers in each row.

a. 8, 11, 5, 6, 7, 13

b. 4, 9, 3, 15, 10, 11

c. 1, 2, 4, 6, 3, 17

d. 23, 12, 16, 19, 20

e. 12, 17, 14, 13, 19, 27

f. 23, 45, 56, 67, 61, 66, 70

g. 12, 14, 23, 67, 45, 46, 90

h. 12, 34, 45, 65, 34, 38.

j. 21, 34, 56, 76, 79, 30

**18. Circle the even numbers in each row.**

- a. 8, 11, 5, 6, 7, 13
- b. 4, 9, 3, 15, 10, 11
- c. 1, 2, 4, 6, 3, 17
- d. 23, 12, 16, 19, 20
- e. 12, 17, 14, 13, 19, 27
- f. 23, 45, 56, 67, 61, 66, 70
- g. 12, 14, 23, 67, 45, 46, 90
- h. 12, 34, 45, 65, 34, 38.
- j. 21, 34, 56, 76, 79, 30
